**Mr. Torres,EPA .Dallas office Mr. Jose Torres @ [Torres.Jose@epamail.epa.gov](mailto:Torres.Jose@epamail.epa.gov)**

Mr. Torres,

As a resident of Crighton Woods in Conroe, Texas, I implore you to help prevent Texcom's toxic injection wells business. Texas is a huge state, as EVERYONE knows. It just doesn't make sense to permit this type of business in the middle of a large, rapidly growing residential area -- yet along in an area with over 500 abandoned oil wells in a 2.5 mile radius, which everyone knows were not closed down properly. If the TCEQ provides Texcom with a permit, it's just a matter of time before the toxics will find their way into our water supply.

Please help us stop this.

Thank you,
